Summary

Final-year Computer Science Engineering (CSE 2026) student with a strong foundation in software development and full-stack web technologies. Skilled in Python, JavaScript, C, and Java, with hands-on experience in HTML, CSS, React.js, Node.js, and Bootstrap/Tailwind CSS. Proficient in developing responsive web applications, problem-solving, and writing clean, efficient code. Familiar with data structures and algorithms (DSA), REST APIs, and version control using Git. A disciplined and self-motivated learner with a strong focus on continuous improvement and real-world project development. Seeking entry-level opportunities or internships in Software Development / Full Stack Development where I can contribute to building scalable applications and grow within a professional environment.

PROFESSIONAL EXPERIENCE

IoT Intern, Ezyintern	05/2025 – 06/2025 Remote & On-site
• System Development: Designed and implemented a mini-project using microcontrollers and sensors to solve real-time data challenges. • Technical Execution: Applied core IoT concepts to build practical applications, maintaining an 86% attendance rate during the 6-week program. • Performance: Secured 85% marks in the final technical assessment, demonstrating strong problem-solving and teamwork skills.	

EDUCATION

Bachelor of Technology in Computer Science and Engineering , Government Engineering College, Siwan CGPA 7.31/10	2022 – 2026
Intermediate in Science (PCM) - Bihar School Examination Board , DAV College Siwan 72%	2020 – 2022 Patna
Bihar School Examination Board, Patna , Arya kanya High School, Siwan 82.4%	2020

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, HTML5, CSS

Web Development: React, Node.js, Bootstrap, Tailwind CSS

Tools & Technologies: Git, GitHub, VS Code

Core Skills: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Databases: MongoDB

PROJECTS

CareerRoute 📄, React-based project Career Route React & Frontend Development • Developed a responsive web application using React to help users navigate career paths based on skill inputs. • Integrated Tailwind CSS for a modern UI/UX, ensuring cross-browser compatibility and mobile responsiveness.
My Portfolio 📄, Frontend project • Built a professional portfolio site using HTML, CSS, and JavaScript to showcase technical projects and certifications. • Deployed the site using GitHub Pages, optimizing assets for faster load times and SEO performance.
Personalized Healthcare System 📄 Developed a Flask-based healthcare web application using Machine Learning for disease prediction. Implemented user authentication and personalized recommendations (diet, medication, precautions). Integrated an AI-based virtual doctor feature to improve user experience.

CERTIFICATES

Cisco: Cisco Networking Certification Cisco CCNA – Course Completion Certificate	Spoken Tutorial Certification in -IIT Bombay: Course Completion Certificate (Bootstrap Training, C Training, C++ Training, Introduction to Computers Training, Linux Training)
NPTEL: Air Pollution and Control (12 Weeks) – IIT Madras, Soft Skill Development (8 weeks) – IIT Kharagpur	Infosys Springboard: Introduction to Data Science & Deep Learning
IBM SkillsBuild: IBM (Introduction to Large Modules) completion certificate
